We're trying to update COC Bases archive and add new 2021 Layouts with Links so you can Copy them! In many Base Layouts, links are not yet available, but we are working on it. You can also help us by adding links using feedback page! 😊 TH13 war Base links, an upgraded level in the game clash of clans, is becoming the most interesting level. Town Hall 13 new hero has come out with new amazing features and the difficulty level is also enhanced. If you are a beginner, then it is important to know the different base layouts. There are different kinds of base layout designs on which you can play the game i.e. farm base, trophy base, and war base. The farm base layout is the one in which the priority is given to the protection of storage and it is kept in the baseline. The trophy base layout is in which priority is given to gaining of trophies, while the storage tower is kept outside the baseline. Lastly, in the war base layout, the defense army is arranged in such a way that it becomes hard for opponents to defeat you. War base and home base are two different things in the game clash of clan. You can have two bases, one as a war base and second as a farm base, etc. Here in this TH13 war base layouts guide, you will get to know about different th13 war base links that are best to win during the war. Best War Base Layout Designs In war base layout designs, you don't have to worry about storage and collector towers as loot is not there. Secondly, in the war zone, your town hall tower must be well protected. You don't have to give an easy start to your opponent and for that protect your town-hall. In low levels, it would be very hard to make a well-protected war zone but in TH13 new upgraded army is there. Best TH13 War Link Anti Everything All the designs shown here are simplest and easy to go with. So starting with the first warzone layout, a heavy defense shield is protecting best th13 war base links. Town Hall is well protected on the side with Morton, surrounded by a wall. The Town Hall is protected from four sides with an archery tower, air-defense tower, and cannon tower. That is again wrapped by a well-protected wall. As in the war zone base, you don't care about loot, so you can put clan collectors and storage towers outside the clan or as a protector of the base. War Base Townhall 13 Copy Link This is the second option for players who want to create the best war zone layout designs. It is similar to the first one but the placement of towers is quite different and more interesting. If you want to protect your Town Hall, you can allocate it on the right side of the base. The defense towers and army towers are placed in such a way that one is protecting the other. TH13 War Base 2021 Anti 2 Star If you have fewer walls and resources to form the th13 war base links, then you can take this option. These resources are not that much important so they can also be used for the protection of base and as walls. The Town Hall is centralized with different kinds of defense towers surrounding it for protection. TH13 War Base without Scattershot When you are forming a war zone for high levels, you are well-equipped with the best anti-war towers. But how to use air-defense, eagle artillery, archery, and cannon tower in the best way is most important. In this base design, the Town Hall is centralized with heavy boundaries and anti-defense towers. TH13 War Base Anti Electro Dragon This war base layout is not centralized, many people like side-base, so for those people, we have added this design. The town hall is at one corner of the base with heavy walls boundary. Outside the boundary, there is a heavy defense army ready for the war. This th13 war base link is best when you want to save your Town Hall. Conclusion We hope it would be now easy for you to choose the th13 war base links base for your clash of clan upgraded levels. These bases are simplest and very easy to go when it is all about War! Town Hall 13 is a more advanced level with amazing features to have fun and trilled war. The compartment structure along with the defense and trap placement works extremely well against current meta strategies and with the recommended cc troops I'm sure you will do well in your next war.Trophy Base: this ring-style base with double-layer core does anything to prevent the attacker to go for the core of your base. It's almost impossible to go through that core to get a 3-Star. Also a solid base for CWL.Farming Base: also a ring-style here with a pretty wide perimeter that makes building a funnel really annoying and requires a lot of good timing from the attacker side to break into the base well and go for the center where the main part of resources are well-protected.Town Hall 13 Bases – April 26th, 2021TH13 War & CWL BaseTH13 Trophy BaseTH13 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. The way the attacker needs to approach the base is really inconvenient (for the attacker) and efficient for making it really hard to even get the 2-Star.Farming Base: this base has the primary focus on the Dark Elixir Storage in the core and an offset Town Hall. The Gold & Elixir Storages are more on the outside so only use it if you want to farm Dark Elixir right now – otherwise I can recommend the farming ring base below from last week.Town Hall 13 Bases – February 8th, 2021TH13 War & CWL BaseTH13 Trophy BaseTH13 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. Not a single attacker was able to get close to 3-Star.Trophy Base: this trophy base has been giving me great results while testing it in Legend League with a super effective center compartment with the Town Hall the sections around it. You will not regret using this base and you will even pick up some defensive victories against other TH13 attackers with it.Farming Base: this farming base has the Dark Elixir Storage in the very core and the other storages around it in the ring. The special thing here is that there are smaller intersections in the outside ring to intercept with funneling so chances are lower for the attacker to actually get his troops into the center of the base.Town Hall 13 Bases – February 1st, 2021TH13 War & CWL BaseTH13 Trophy BaseTH13 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. The offset Town hall section along with the large corner compartment works really well and the perimeter is super effective in giving the attacker a hard time.Trophy Base: Offsetting the Town Hall to make the general troop pathing different worked really well and I was able to pick up several defensive victories in Legend League with it. Writing the whole defensive technique here would make it far too much, so take my word when I tell you that attackers don't like this base!Farming Base: this farming base is pretty compact to protect as many resources as possible, with the Town Hall, Clan Castle and Dark Elixir in the core and then multiple layers of rings around it to take the attacker away from the inside of the base.Town Hall 13 Bases – January 25th, 2021TH13 War & CWL BaseTH13 Trophy BaseTH13 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. This base has no outstanding features and uses all the meta and classic defensive mechanisms there are at TH13 and has not been 3-Stared in any war so far in our wars.Trophy Base: this trophy base is really effective with the design of the backline compartments and the huge section in the center that will interrupt troop pathing really effectively and prevent 3-Star attacks completely. Really effective for Legend League.Farming Base: a lot of small compartments with efficient storage locations will make this base really good in keeping resources away from the attacker, especially your Dark Elixir Storage is well-protected for all those expensive upgrades at TH13.Town Hall 13 Bases – January 18th, 2021TH13 War & CWL BaseTH13 Trophy BaseTH13 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. Nothing really outstanding here, it just works really well.Trophy Base: I loved using this trophy base last week with my main TH13 account in Legend League! The offset Town Hall makes this base look like a whacky war base, but all features are there to prevent the 2-Star, and this base does it really effectively.Farming Base: this is a very effective version of a ring base with intercepting compartments in the outside ring, making it a lot harder to funnel troops. And how does this help protecting resources? Well, Dark Elixir in the core which is hard to reach and all other storages are spread around the base so getting all your loot means the attacker needs to 3-Star this base (not happening).Town Hall 13 Bases – January 11th, 2021TH13 War & CWL BaseTH13 Trophy BaseTH13 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. I haven't had a single 3-Star against this base in both, friendly challenges and real wars as well.Trophy Base: this trophy base performed really well recently in Legend League for me, being kind of a ring base but with closed compartments around the ring. Attackers had problems bypassing the perimeter already with all the storages there it takes a load of troops to actually build a proper funnel.Farming Base: this base works well if you're fresh to TH13 and want to protect some resources for the expensive upgrades you're facing. Close structure, smart storage placement, what else could you need?Town Hall 13 Bases – January 4th, 2021TH13 War & CWL BaseTH13 Trophy BaseTH13 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. It's still a Anti-3-Star base designed for war, but the Town Hall got some more protection so the 2-Star is not that easy as it would be with an exposed Town Hall.Trophy Base: this trophy base is inspired by a CWL base I was designing recently and uses many features that will keep your trophies protected from the attacker by smart compartment design and defense placementFarming Base: this TH13 ring base will protect your resources, I can tell you that. Instead of placing the Town Hall in the center core surrounded by dead zones will make it super hard to get troops there. Head Hunter, Super Minions, that's the real deal here.Trophy Base: We've seen bases like that a little more frequently and it looks like the dead zones core layout like this one is starting to pick up some advantages so I used this base here lately that had some nice success in defending trophies.Farming Base: This farming base for TH13 uses the simple approach of using the full space of the village map with large spaces in between buildings to make it harder to predict traps and also make time a bigger thing for the attacker as well as taking splash value out of the equation.Town Hall 13 Bases – December 14th, 2020TH13 War & CWL BaseTH13 Trophy BaseTH13 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. I also tested the new super troops and found them underwhelming because they are really squishy to use, so stick to the classic Super minion combinations.Trophy Base: This trophy base for TH13 has the Eagle Artillery in the center and the Town Hall offset to force the attacker to go directly that path to have any chance to get any stars and percentage against this base. This path, of course, is full of traps and other "pleasures" to make it as hard as possible for the attacker. Worked really nice in my tests.Farming Base: The Town Hall is offset here in this layout to have space in the core to get more storages in there. The compartments around the core work well in distracting and slowing down attacking troops and the easy-to-get Town Hall is another motivation for attackers to not ultimately go for the core.Town Hall 13 Bases – December 7th, 2020TH13 War & CWL BaseTH13 Trophy BaseTH13 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. I will spend more testing on them the next days and might adapt the cc troops above, until then just use the recommended cc troops.Town Hall 13 Bases – November 30th, 2020TH13 War & CWL BaseTH13 Trophy BaseTH13 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. All centralized Town Hall with open section to the bottom and empty spaces on the sides, also really effective in CWL!Trophy Base: super interesting approach on the core design with the Scattershots in their own sections that split the ring around the core's dead zone that works really well with troops AI and also forcing the attacker to re-think funneling. I had great results using this base in Legend LeagueFarming Base: this war base takes the general approach of a trophy base with the offset Town Hall in one side and the Eagle Artillery on the other side and places the Dark Elixir storage in the center with the Clan Castle and other storages on the inside as well. Worked really effectively for me lately.Town Hall 13 Bases – November 23rd, 2020TH13 War & CWL BaseTH13 Trophy BaseTH13 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. Also defense arrangement is well-thought-out to minimize the value for spells.Trophy Base: This trophy base for TH13 doesn't use the "all-storages-out" method with a strong center section that includes the heroes as well as the cc. The Eagle Artillery is on the opposite side of the Town Hall to force the attacker to either go for the Town Hall and deal with the Eagle Artillery all the time or get the Eagle Artillery and risk not getting the Town Hall.Farming Base: this layout is not a classic ring base by definition and uses an extra compartment section on the outside but leaves the dead zone ring around the core where the strongest defenses defend the Town Hall and Dark Elixir Storage as well. The other storages are spread around the base to maximize chances that the attacker don't get all of them.Town Hall 13 Bases – November 16th, 2020TH13 War & CWL BaseTH13 Trophy BaseTH13 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it. The bottom compartment is stuffed and can't get taken out easily so I haven't seen one 3-Star against this base so far.Trophy Base: This trophy base forces the attacker to actually decide to go either for the section with the Town Hall (and deal with an Eagle Artillery shooting at the troops during the whole attack), or into the Eagle Artillery and risk missing the Town Hall for the 2-Star. The core is designed to split troops to the sides which makes this base really effective.Farming Base: this dynamic farming base for Town Hall 13 lets you switch around storages, depending what resource you want to protect more. You have a well-protected core here surrounded by other compartments that try to get the troops away from the core.Town Hall 13 Bases – November 9th, 2020Alright, the Super Minion is officially working really well as a defending troop at Town Hall 13 with the distance and damage done so it is on top of the defending meta right now at TH13.TH13 War & CWL BaseTH13 Trophy BaseTH13 Farm BaseBase Strength:Attention!This base got popular so people developed a strategy against it.
