I stumbled across the Word of the Day a few years ago, and was getting it in my email every morning. I word share it on social media every day. But then it stopped coming. Seriously, MW, what's up with that? I checked my spam folder, I tried unsubscribing and then subscribing again, but nothing. It just would not send. (I know...this doesn't really seem like a 5 star review, does it? Stay with me, it gets better. ☺)But finally it dawned on me that I was using the website a lot to look up words, either in the dictionary or the thesaurus, and that I should just look for the app. Hey, I'm 62 and a little slow with technology, OK? I love the app, and I use every day...usually several times a day. I look up meanings of unfamiliar words, of course. But I use the thesaurus a lot. When I am writing an email, or text, or posting on social media I frequently find myself searching my brain for a word that I know is perfect for the context, but my brain just can't seem to grab onto. (Old and slow, remember?) I go to the thesaurus and start putting in words that are similar, but not quite what I'm looking for. Most of the time, I find the word I want. Occasionally I don't, but I do find an acceptable substitute. I still check out the WOD, and share it on social media. And I am absolutely LOVING the way they subtly (and sometimes not so subtly) throw shade at the current President and administration. It's a master class in shade throwing. ☺☺ Hi, thanks for your review. We're glad that you like the app! If you would like to start receiving our Word of the Day emails again, feel free to email wodsupport@m-w.com. They would be happy to help reactivate your subscription.
