Telling time worksheets for grade 2

These grade 2 worksheets help students learn to read a traditional (analog) clock-face. We begin with "whole hours" (3 o'clock, etc.) and progress to half fours, quarter hours and 5 and 1 minute intervals. We also cover the units of time, am & pm, and elapsed time. Finally, we introduce the days of the week and months of the year. Explore all of our time worksheets, from understanding units of time to reading clocks and calendars. K5 Learning offers free worksheets, flashcards and inexpensive workbooks for kids in kindergarten to grade 5. We help your children build good study habits and excel in school. You are here: Home → Worksheets → Grade 2 telling time In second grade, children review about telling time to the whole hour and to the half hour (from 1st grade), and learn to tell time to the quarter hour and to the five-minute intervals. The worksheets below include problems both for telling time from an analog clock and for drawing hands on a clock face. You can also make customized worksheets on your own using the generator on the bottom of this page. Basic instructions for the worksheets Each worksheet is randomly generated and thus unique. The answer key is automatically generated and is placed on the second page of the file. You can generate the worksheets either in html or PDF format — both are easy to print. To get the PDF worksheet, simply push the button titled "Create PDF" or "Make PDF worksheet". To get the worksheet in html format, push the button "View in browser" or "Make html worksheet". This has the advantage that you can save the worksheet directly from your browser (choose File → Save) and then edit it in Word or other word processing program. Sometimes the generated worksheet is not exactly what you want. Just try again! To get a different worksheet using the same options: PDF format: come back to this page and push the button again. Html format: simply refresh the worksheet page in your browser window.
