But remember these tips are good only if you follow them, so make sure you do your best to follow them, otherwise it would be a complete waste of time to go through the content below this point. NCERT And Pocket Diary - Deadly combination The very first thing that you should do is finishing up your class 12th NCERT book, do it without memorizing. Focus more on understanding it, and get an idea of the syllabus and topics. Complete all the questions from your NCERT textbook, as most of the questions in physics, comes from the NCERT textbook directly. So, try to finish NCERT first then go for other 12th reference book for PCM. Make a pocket diary, and make three sections in it. One for Important Formulae, second for important derivations and the third one for important definitions. Write only important stuff in that diary, so choose your content very carefully. If you could combine important NCERT notes with your pocket diary then it surely will be a deadly combination for the board exam. Diagrams And Doubts - both should be clean and clear Do not forget to study and memorize the diagrams and important graphs, this may help you to get extra marks. Drawing a neat and clean diagram can explain things in a much better way than long answers. And diagrams are also helpful in those places where you do not have much to write. Understand each and every topic throughout and in case if you find any doubts then, clear them right away by asking your teachers. Do not underestimate this point as a small doubt can result in turning the whole answer wrong and hence deducting marks. Give special attention to your minor mistakes like 5.1 units etc. You may lose your marks just because of these silly mistakes, they are like imps which look tiny but can cause lots of damage. Do not hesitate to practice the numericals, these questions are the scoring ones, and you can score full marks in numerical questions without putting many efforts. Strategy for Exam Your exam preparation strategy should be very precise and you need to follow the latest CBSE 12th blueprints for your preparation because it will give the idea of board exam questions paper such as types of questions, numerical, and derivations etc. Create a studying timetable and follow it until you are finished with your preparations. Just by doing time management you can score more than 15 extra marks. Revision is compulsory, the pocket diary you have maintained is now good to use. This pocket diary will help you to revise all the important topics anytime and anywhere. Solve and practice previous year papers and guess papers. They will make you stronger enough to face the board exam. Find your weak areas and try to make them your stronger ones, by practicing and working hard on them. Improve your writing and drawing skills. Presenting a good and neat answer sheet to the checker is always a great idea. This may help you to score some extra marks. So, hope you liked my tips to prepare for physics. You are free to post your precious comments below in order to sort out your problems regarding preparations and downloading the CBSE Class 12th Physics Important Questions Chapter Wise PDF Files. What To Do With CBSE Class 12 Physics Important Questions & Notes With the downloaded PDF files, you can do a lot. It is easy to download the pdf files but hard to practice them.
