The game is pure mindless mayhem at its best. Decent story opens up to a free-roaming city with missions that you choose when you want to do them. (like Ultimate Spider-Man (another good game people should check out), or even GTA to a point) Aside from the storyline missions, and the free-roaming smash-fest, there are tons of "Challenge" type missions; example of one is it puts you on top of a building with a big steel beam and some poor guy jumps out of a helicopter and you try to hit him as far as you can like a baseball! Tons of different abilities you will unlock over time really adds to the fun, and even though you can die I think the game does a really good job of making the Hulk as much of an unstoppable force of nature as he could be without breaking the gameplay. If you care anything about having fun then this game is for you! Period! End of Story! Fin... Aldar on 2010-05-04 09:54:18
